INDEPENDENT AUDITOR’S REPORT TO THE SHAREHOLDERS OF TIJARA & REAL ESTATE INVESTMENT COMPANY K.S.C.P.

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Tijara & Real Estate Investment Company K.S.C.P. (the “Parent Company”) and its subsidiaries (collectively, the “Group”), which comprise the consolidated statement of financial position as at 31 December 2020, the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2020, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards (“IFRS”).

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (“ISAs”). Our responsibilities under those standards are further described in the *Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements*’ section of our report. We are independent of the Group in accordance with the *International Code of Ethics for Professional Accountants* (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor’s responsibilities for the audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF TIJARA & REAL ESTATE INVESTMENT COMPANY K.S.C.P. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Key Audit Matters (continued)

Valuation of Investment properties

Investment properties of the Group represent a significant portion of the total assets as at 31 December 2020 and are carried at fair value. The Management of the Group determines the fair value of its investment properties and uses external appraisers to support the valuation as of 31 December 2020. The valuation of the investment properties at fair value is highly dependent on estimates and assumptions such as rental value, occupancy rates, discount rates, financial stability of tenants, market knowledge and historical transactions. Further, the disclosures relating to the assumptions are relevant, given the estimation uncertainty and sensitivity of the valuations. Due to the size and complexity of the valuation of investment properties and the importance of the disclosures relating to the assumptions used in the valuation, we identified this as a key audit matter. The Group's policies for fair valuation of investment properties are presented in accounting policies in Note 2 of the consolidated financial statements.

Our audit procedures included, among others, the following:

- We have reviewed the assumptions and estimates made by the management and the external appraisers, appropriateness of the valuation technique and reasonableness of data used in the valuation.
- We have evaluated the management's sensitivity analysis to ascertain the impact of reasonably possible changes to key assumptions on the fair value of properties such as rental income, occupancy rates, discount rates, and historical transactions.
- We have considered the objectivity, independence and expertise of the external appraisers.
- We assessed that the significant assumptions and related uncertainties are appropriately reflected in the sensitivity disclosure in Note 8 to the consolidated financial statements.

Other information included in the Group's 2020 Annual report

Management is responsible for the other information. Other information consists of the information included in the Group's 2020 Annual Report, other than the consolidated financial statements and our auditor's report thereon. We obtained the report of the Parent Company's Board of Directors, prior to the date of our auditor's report, and we expect to obtain the remaining sections of the Annual Report after the date of our auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF TIJARA & REAL ESTATE INVESTMENT COMPANY K.S.C.P. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with IFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF TIJARA & REAL ESTATE INVESTMENT COMPANY K.S.C.P. (continued)

Report on the Audit of the Consolidated Financial Statements (continued)

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements (continued)

- ▶ Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- ▶ Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- ▶ Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

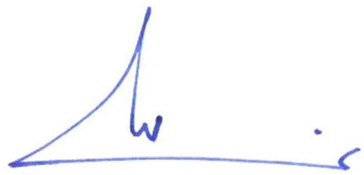

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current year and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS OF TIJARA & REAL ESTATE INVESTMENT COMPANY K.S.C.P. (continued)

Report on Other Legal and Regulatory Requirements

Furthermore, in our opinion proper books of account have been kept by the Parent Company and the consolidated financial statements, together with the contents of the report of the Parent Company's Board of Directors relating to these consolidated financial statements, are in accordance therewith. We further report that, we obtained all the information and explanations that we required for the purpose of our audit and that the consolidated financial statements incorporate all information that is required by the Companies Law No.1 of 2016, as amended, and its executive regulations, as amended, and by the Parent Company's Memorandum of Incorporation and Articles of Association, that an inventory was duly carried out and that, to the best of our knowledge and belief, no violations of the Companies Law No. 1 of 2016, as amended, and its executive regulations, as amended, or of the Parent Company's Memorandum of Incorporation and Articles of Association, have occurred during the year ended 31 December 2020, that might have had a material effect on the business of the Parent Company or on its financial position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

1 CORPORATE INFORMATION

The consolidated financial statements of Tijara & Real Estate Investment Company K.S.C.P. (the “Parent Company”) and its Subsidiaries (collectively “the Group”) for the year ended 31 December 2020 were authorised for issue in accordance with a resolution of the board of directors on 10 March 2021. The General Assembly of the Parent Company’s shareholders has the power to amend these consolidated financial statements in the Annual General Assembly meeting of the Parent Company’s shareholders.

The consolidated financial statements of the Group for the year ended 31 December 2019 were approved by the shareholders of the Parent Company in the annual general assembly meeting held on 25 June 2020.

The Parent Company is a public Kuwaiti shareholding company registered and incorporated in Kuwait on 18 April 1983. The Group operates in accordance with the Islamic Share’a and is engaged in the following activities:

- Purchase and sale of land and real estate and exchange thereof; constructing buildings, commercial and residential complexes, and lease and rental thereof.
- Management of own properties and of third parties both inside and outside Kuwait.
- Sale and purchase of securities of companies carrying on similar activities.
- Development and building of real estate properties for the Group and for third parties.
- Maintenance works of buildings and real estate properties owned by the Group, including civil, mechanical, air-conditioning works to preserve all buildings and properties.
- Investing in equities and other investments.

The registered office of the Parent Company is P.O. Box 5655, Safat, 13057 Kuwait. The Parent Company was listed on the Kuwait Stock Exchange on 26 September 2005.

2 SIGNIFICANT ACCOUNTING POLICIES

2.1 BASIS OF PREPERATION

Statement of compliance

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB).

Basis of preparation

The consolidated financial statements have been prepared under the historical cost convention as modified for investment properties carried at fair value.

The consolidated financial statements have been presented in Kuwaiti Dinars (KD), which is also the functional currency of the Parent Company.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The Group applied for the first time, certain standards and amendments, which are effective for annual periods beginning on or after 1 January 2020. The Group has not early adopted any other standard, interpretation or amendment that has been issued but is not yet effective.

Amendments to IFRS 3: Definition of a Business

The amendment to IFRS 3 Business Combinations clarifies that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that, together, significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs. These amendments had no impact on the consolidated financial statements of the Group, but may impact future periods should the Group enter into any business combinations.

Amendments to IFRS 7, IFRS 9 and IAS 39 Interest Rate Benchmark Reform

The amendments to IFRS 7 and IAS 39 Financial Instruments: Recognition and Measurement provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument. These amendments have no impact on the consolidated financial statements of the Group as it does not have any interest rate hedge relationships.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES (continued)

Amendments to IAS 1 and IAS 8 Definition of Material

The amendments provide a new definition of material that states, “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.” The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users. These amendments had no impact on the consolidated financial statements of, nor is there expected to be any future impact to, the Group.

Conceptual Framework for Financial Reporting issued on 29 March 2018

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the IASB in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes some new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts. These amendments had no impact on the consolidated financial statements of the Group.

Amendments to IFRS 16 Covid-19 Related Rent Concessions

On 28 May 2020, the IASB issued Covid-19-Related Rent Concessions - amendment to IFRS 16 Leases. The amendments provide relief to lessees from applying IFRS 16 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. The amendment applies to annual reporting periods beginning on or after 1 June 2020. Earlier application is permitted. This amendment had no impact on the consolidated financial statements of the Group.

2.3 STANDARDS ISSUED BUT NOT YET EFFECTIVE

The standards and interpretations that are issued, but not yet effective, up to the date of issuance of the Group’s financial statements are disclosed below. The Group intends to adopt these standards, if applicable, when they become effective.

Amendments to IAS 1: Classification of Liabilities as Current or Non-current

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- ▶ What is meant by a right to defer settlement
- ▶ That a right to defer must exist at the end of the reporting period
- ▶ That classification is unaffected by the likelihood that an entity will exercise its deferral right
- ▶ That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after 1 January 2023 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

Amendments to IFRS 3: Reference to the Conceptual Framework

In May 2020, the IASB issued Amendments to IFRS 3 Business Combinations - Reference to the Conceptual Framework. The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements.

The Board also added an exception to the recognition principle of IFRS 3 to avoid the issue of potential ‘day 2’ gains or losses arising for liabilities and contingent liabilities that would be within the scope of IAS 37, if incurred separately.

At the same time, the Board decided to clarify existing guidance in IFRS 3 for contingent assets that would not be affected by replacing the reference to the Framework for the Preparation and Presentation of Financial Statements.

The amendments are effective for annual reporting periods beginning on or after 1 January 2022 and apply prospectively.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.3 STANDARDS ISSUED BUT NOT YET EFFECTIVE (continued)

Amendments to IAS 16: Property, Plant and Equipment: Proceeds before Intended Use

In May 2020, the IASB issued Property, Plant and Equipment — Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment. The amendments are not expected to have a material impact on the Group.

IFRS 9 Financial Instruments: Fees in the '10 per cent' test for derecognition of financial liabilities

As part of its 2018-2020 annual improvements to IFRS standards process the IASB issued amendment to IFRS 9. The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after 1 January 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendments are not expected to have a material impact on the Group.

2.4 BASIS OF CONSOLIDATION

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries (collectively the "Group") as at 31 December 2020.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

- ▶ Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- ▶ Exposure, or rights, to variable returns from its involvement with the investee; and
- ▶ The ability to use its power over the investee to affect its returns.

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- ▶ The contractual arrangement with the other vote holders of the investee;
- ▶ Rights arising from other contractual arrangements; and
- ▶ The Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Group gains control until the date the Group ceases to control the subsidiary.

Tijara & Real Estate Investment Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.4 BASIS OF CONSOLIDATION (continued)

Profit or loss and each component of other comprehensive income (“OCI”) are attributed to the equity holders of the parent of the Group and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group’s accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction.

If the Group loses control over a subsidiary, it derecognises assets (including goodwill), liabilities, non-controlling interests, and other components of equity while any resultant gain or loss is recognized in the consolidated statement of income. Consideration received and any investment retained are recognized in the consolidated statement of financial position at fair value. It also reclassifies any share of components previously recognised in OCI to the consolidated statement of income or retained earnings, as appropriate, as would be required if the Group had directly disposed of the related assets or liabilities.

Details of the subsidiaries included in the consolidated financial statements set out below:

Name of company	Equity interest		Country of incorporation	Activities
	2020	2019		
Madar Al Kuwait Trading and Contracting Company - Single Person Company	100%	100%	Kuwait	General trading
Tilal Real Estate Company W.L.L.*	95%	95%	Saudi Arabia	Real Estate

*The remaining shares in the subsidiary are held by related parties who have confirmed in writing that the Parent Company is the beneficial owner.

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquired. For each business combination, the acquirer measures the non-controlling interest in the acquire either at fair value or at the proportionate share of the acquirer’s identifiable net assets. Acquisition costs incurred are expensed.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is remeasured at its acquisition date fair value and any resulting gain or loss is recognised in profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date.

Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of IFRS 9 Financial Instruments: Recognition and Measurement, is measured at fair value with changes in fair value recognised either in consolidated statement of income or as a change to consolidated other comprehensive income. If the contingent consideration is not within the scope of IFRS 9, it is measured in accordance with the appropriate IFRS. Contingent consideration that is classified as equity is not remeasured and subsequent settlement is accounted for within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Business combinations and goodwill (continued)

If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in consolidated statement of income.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquire are assigned to those units.

Where goodwill forms part of a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

Revenue recognition

Revenue is recognised either at a point in time or overtime, when (or as) the Group satisfies performance obligations by transferring the promised goods or services to its customers.

Rental income

The Group is the lessor in operating leases. Rental income arising from operating leases on investment properties is accounted for on a straight-line basis over the lease terms.

Gain on sale of inventory properties and investment properties

Gain on sale of inventory properties and investment properties is recognised when the control of properties are transferred to the buyer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those properties.

Other service and operating income

Other service and operating income earned for the provision of services over a period of time are accrued over that period.

Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received, and all attached conditions will be complied with. When the grant relates to an expense item, it is recognised as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognised as income in equal amounts over the expected useful life of the related asset.

When the Group receives grants of non-monetary assets, the asset and the grant are recorded at nominal amounts and released to profit or loss over the expected useful life of the asset, based on the pattern of consumption of the benefits of the underlying asset by equal annual instalments.

Finance costs

Finance costs that are directly attributable to the acquisition and construction of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of that asset. Capitalisation of borrowing costs ceases when substantially all the activities necessary to prepare the asset for its intended use or sale are complete. Other finance costs are recognized as an expense in the period in which they are incurred.

The finance cost capitalized is calculated using the weighted average cost of borrowing after adjusting for borrowing associated with specific development. Where borrowings are associated with specific developments, the amount capitalized is the gross finance cost incurred on those borrowing less any investment income arising on their temporary investment. Finance cost is capitalized as from the commencement of the development work until the date of practical completion. The capitalization of finance costs is suspended if there are prolonged periods when development activity is interrupted. Finance cost is also capitalized in the purchase cost of a site of property acquired specifically for redevelopment, but only where activities necessary to prepare the asset for redevelopment are in progress.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Taxation

Kuwait Foundation for the Advancement of Sciences (KFAS)

The Group calculates the contribution to KFAS at 1% of profit for the year (net of accumulated losses brought) after accounting for the transfer to statutory reserve.

National Labour Support Tax (NLST)

The Group calculates the NLST in accordance with Law No. 19 of 2000 and the Minister of Finance Resolutions No. 24 of 2006 at 2.5% of taxable profit for the year. In determining taxable profit, profit of associates and subsidiaries subject to NLST and cash dividends from listed companies subject to NLST are deducted.

Zakat

Contribution to Zakat is calculated at 1% of the profit of the Group in accordance with the Ministry of Finance resolution No. 58/2007 effective from 10 December 2007.

Financial instruments – initial recognition, subsequent measurement and derecognition

(i) Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of accounts receivable that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Accounts receivable that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price determined under IFRS 15.

In order for a financial asset to be classified and measured at amortised cost, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

The Group's financial assets include bank balances and cash, accounts receivable and prepayments.

Subsequent measurement

The subsequent measurement of financial assets depends on their classification as follows:

Financial assets at amortised cost (debt instruments)

The Group measures financial assets at amortised cost if both of the following conditions are met:

- ▶ The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- ▶ The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Financial assets at amortised cost are subsequently measured using the effective interest (EIR) method and are subject to impairment. Gains and losses are recognised in the consolidated statement of income when the asset is derecognised, modified or impaired.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments – initial recognition, subsequent measurement and derecognition (continued)

(i) Financial assets (continued)

Derecognition

A financial asset (or, where applicable a part of financial asset or part of a group of similar financial assets) is derecognised when:

- ▶ the contractual rights to receive cash flows from the asset have expired;
- ▶ the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a ‘pass through’ arrangement; or
- ▶ the Group has transferred its contractual rights to receive cash flows from the asset and either:
 - (a) has transferred substantially all the risks and rewards of the asset, or
 - (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognised to the extent of the Group’s continuing involvement in the asset. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment of financial assets

The Group recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

ECLs are recognised in two stages. For credit exposures for which there has not been a significant increase in credit risk since initial recognition, ECLs are provided for credit losses that result from default events that are possible within the next 12-months (a 12-month ECL). For those credit exposures for which there has been a significant increase in credit risk since initial recognition, a loss allowance is required for credit losses expected over the remaining life of the exposure, irrespective of the timing of the default (a lifetime ECL).

For accounts receivable and contract assets, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

The Group considers a financial asset in default when contractual payments are 90 days past due. However, in certain cases, the Group may also consider a financial asset to be in default when internal or external information indicates that the Group is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Group. A financial asset is written off when there is no reasonable expectation of recovering the contractual cash flows.

(ii) Financial liabilities

Initial recognition and measurement

Financial liabilities, are classified, at initial recognition as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge. The Group determines the classification of its financial liabilities at initial recognition.

All financial liabilities are recognised initially at fair value and in case of borrowings, plus directly attributable transactions costs. The Group’s financial liabilities include accounts payable and accruals and Islamic financing payables.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Financial instruments – initial recognition, subsequent measurement and derecognition (continued)

(ii) Financial liabilities (continued)

Subsequent measurement

The measurement of financial liabilities depends on their classification as follows:

Accounts payable and accruals

Accounts payable and accruals are recognised for amounts to be paid in the future for goods or services received, whether billed by the supplier or not.

Islamic financing payables

Ijara payables represents the amount payable on a deferred settlement basis for assets purchased under ijara and tawarruq arrangements. Ijara payable is stated at the aggregate of the minimum lease payment due plus finance cost payable, net of any deferred costs.

Tawarruq payables represent amounts payable on a deferred settlement basis for commodities purchased under Tawarruq arrangements. Tawarruq payables are stated at the gross amount of the payables plus finance cost payable, less deferred profit payables.

Murabaha payable is an Islamic agreement which represents the amount payable, on a deferred settlement basis, exceeding one year for assets purchased under murabaha arrangements.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in the consolidated statement of income.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of consolidated financial position if and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

Inventory properties

Inventory properties are measured initially at cost. Subsequent to initial recognition, inventory properties are carried at the lower of cost or net realizable value determined on an individual basis.

Cost comprises the purchase cost of the property and other costs incurred in association with the construction or development of property to bring it to the condition necessary to make the sale.

Net realisable value is the estimated selling price in the ordinary course of the business, less costs to completion and the estimated costs necessary to make the sale.

Investment in an associate

The Group's investment in its associate is accounted for under the equity method of accounting. An associate is an entity in which the Group has significant influence.

Under the equity method, the investment in the associate is carried in the consolidated statement of financial position at cost plus post-acquisition changes in the Group's share of net assets of the associate. Goodwill relating to an associate is included in the carrying amount of the investment and is not amortised nor separately tested for impairment.

The consolidated statement of income reflects the Group's share of the results of operations of the associate. Where there has been a change recognised directly in the other comprehensive income of the associate, the Group recognises its share of any changes and discloses this, when applicable, in other comprehensive income. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment in an associate (continued)

The Group's share of profit of an associate is shown on the face of the consolidated statement of income and represents profit after tax and non-controlling interests in the subsidiaries of the associate. The financial statements of the associate are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investment in its associates. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If this is the case the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in the consolidated statement of income.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in the consolidated statement of income.

Investment properties

Investment properties are measured initially at cost, including transaction costs. The carrying amount includes the cost of replacing part of an existing investment property at the time that cost is incurred if the recognition criteria are met; and excludes the costs of day to day servicing of an investment property. Subsequent to initial recognition, investment properties are stated at fair value, which reflect market conditions at the reporting date.

Gains or losses arising from changes in the fair values of investment properties are included in the consolidated statement of income in the year in which they arise. The fair value of investment properties is determined by independent real estate valuation experts using recognised valuation techniques.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in the consolidated statement of income in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use. For a transfer from investment property to owner occupied property, the deemed cost for subsequent accounting is the fair value at the date of change in use. If owner occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Employees' end of service benefits

The Group provides end of service benefits to all its employees. The entitlement to these benefits is based upon the employees' final salary and length of service, subject to the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment.

Further, with respect to its national employees, the Group also makes contributions to social security calculated as a percentage of the employees' salaries. The Group's obligations are limited to these contributions, which are expensed when due.

Treasury shares

The Parent Company's own shares are accounted for as treasury shares and are stated at cost. When the treasury shares are sold, gains are credited to a separate account in equity (treasury shares reserve) which is non-distributable. Any realised losses are charged to the same account to the extent of the credit balance on that account. Any excess losses are charged to retained earnings then reserves. Gains realised subsequently on the sale of treasury shares are first used to offset any previously recorded losses in the order of reserves, retained earnings and the treasury shares reserve account. No cash dividends are distributed on these shares. The issue of bonus shares increases the number of treasury shares proportionately and reduces the average cost per share without affecting the total cost of treasury shares.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Foreign currencies

The Group's consolidated financial statements are presented in Kuwaiti Dinars, which is also the Parent Company's functional currency. For each entity the Group determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

i) Transactions and balances

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date the transaction first qualifies for recognition.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Differences arising on settlement or translation of monetary items are recognised in consolidated statement of income with the exception of monetary items that are designated as part of the hedge of the Group's net investment of a foreign operation. These are recognised in other comprehensive income until the net investment is disposed of, at which time, the cumulative amount is reclassified to consolidated statement of income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined.

ii) Group companies

On consolidation, the assets and liabilities of foreign operations are translated into Kuwaiti Dinars at the rate of exchange prevailing at the reporting date and their income statements are translated at exchange rates prevailing at the dates of the transactions. The exchange differences arising on translation for consolidation are recognised in other comprehensive income. On disposal of a foreign operation, the component of other comprehensive income relating to that particular foreign operation is recognised in the consolidated statement of income.

Contingencies

Contingent liabilities are not recognised in the consolidated statement of financial position. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

Contingent assets are not recognised in the consolidated financial statements but disclosed when an inflow of economic benefits is probable.

Segment information

A segment is a distinguishable component of the Group that is engaged either in providing products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments.

Fair value measurements

The Group measures its non-financial assets such as investment properties, at fair value at the end of each reporting period. Also, fair values of financial instruments measured at amortised cost are disclosed in the consolidated financial statements. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability; or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible to by the Group.

The Group must be able to access the principal or the most advantageous market at the measurement date. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.5 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Fair value measurements (continued)

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

An analysis of fair values of investment properties are provided in Note 15.

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of the Group's consolidated financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

The COVID-19 outbreak has created uncertainty for revenue forecasts, sourcing and workforce availability, credit ratings, etc. But also volatility in stock prices, profit and currency exchange rates. Estimates based on such metrics may be subject to change due to market changes in the near term or circumstances arising that are beyond the control of the Group.

Judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the consolidated financial statements:

Classification of real estate properties

Management of the Group decides on acquisition of a developed and under development property whether it should be classified as inventory, investment property or property and equipment.

The Group classifies property as inventory property if it is acquired principally for sale in the ordinary course of business.

The Group classifies property as investment property if it is acquired to generate rental income or for capital appreciation, or for undetermined future use.

The Group classifies property as property and equipment when it is acquired for owner occupation.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

2 SIGNIFICANT ACCOUNTING POLICIES (continued)

2.6 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS (continued)

Judgements (continued)

Classification of financial assets

The Group determines the classification of financial assets based on the assessment of the business model within which the assets are held and assessment of whether the contractual terms of the financial asset are solely payments of principal and profit on the principal amount outstanding.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Group based its assumptions and estimates on parameters available when the consolidated financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Group. Such changes are reflected in the assumptions when they occur.

Impairment of tenant and other receivables

The Group uses the simplified model in calculation of the ECL for tenant receivables that do not contain a significant financing component by establishing a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. However, the segmentation applied in previous years revised to reflect the different ways in which the COVID-19 outbreak affects different types of customers (e.g. by extending payment terms). The Group will continue to individually assess significant exposures as more reliable data becomes available and accordingly determine if any adjustment in the ECL is required in subsequent reporting periods.

Valuation of investment properties

The fair value of investment properties is determined by real estate valuation experts using recognised valuation techniques and the principles of IFRS 13 *Fair Value Measurement*.

Investment properties are measured based on estimates prepared by independent real estate valuation experts. The significant methods and assumptions used by valuers in estimating the fair value of investment properties are set out in Note 7.

As at the reporting date, the Group has considered the potential impact of the current economic volatility in the determination of the reported amounts of the Group's investment properties and the unobservable inputs are developed using the best available information about the assumptions that market participants would make in pricing these assets at the reporting date. Markets however remain volatile and the recorded amounts remain sensitive to market fluctuations.

3 RENTAL INCOME

	<i>2020</i>	<i>2019</i>
	<i>KD</i>	<i>KD</i>
Gross rental income	4,033,641	4,163,999
Less: discounts provided on account of COVID-19	(434,736)	-
	3,598,905	4,163,999

As a direct consequence of the COVID-19 coronavirus pandemic, the Group provided one-off rent reductions to certain lessees. No other substantive changes have been made to the terms of the lease, and accordingly the Group accounted for the effect of the rent concession by recognising lower rental income from leases.

Tijara & Real Estate Investment Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

4 BASIC AND DILUTED EARNINGS PER SHARE

Basic earnings per share is calculated by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the year (excluding treasury shares). Diluted earnings per share is calculated by dividing the profit for the year by the weighted average number of ordinary shares outstanding during the year (excluding treasury shares) plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares. As at the reporting date, the Group had no outstanding dilutive potential shares. As there are no dilutive instruments outstanding, basic and diluted earnings per share are identical.

	<i>2020</i>	<i>2019</i>
Profit for the year (KD)	<u>54,740</u>	<u>1,406,533</u>
Weighted average number of shares outstanding during the year (excluding treasury shares) *	<u>370,000,000</u>	<u>370,000,000</u>
Basic and diluted earnings per share	<u>0.15 fils</u>	<u>3.80 fils</u>

* The weighted average of shares takes into account the weighted average effect of changes in treasury shares during the year.

There have been no other transactions involving ordinary shares or potential ordinary shares between the reporting date and the date of these financial statements.

5 ACCOUNTS RECEIVABLE AND PREPAYMENTS

	<i>2020</i> <i>KD</i>	<i>2019</i> <i>KD</i>
Rent receivables	1,498,688	1,018,855
Provision for expected credit losses	(1,086,628)	(299,987)
Net rent receivables	<u>412,060</u>	<u>718,868</u>
Receivable from property developer	743,608	743,608
Provision for expected credit losses	(743,608)	(300,000)
Net receivable from property developer	<u>-</u>	<u>443,608</u>
Prepaid expenses	18,995	19,266

7 INVESTMENT PROPERTIES

	<i>2020</i> <i>KD</i>	<i>2019</i> <i>KD</i>
At 1 January	60,396,066	60,179,738
Additions	-	50,000
Disposal	-	(550,000)
Change in fair value of investment properties	(59,472)	730,152
Net foreign exchange gain (loss)	10,810	(13,824)
At 31 December	<u>60,347,404</u>	<u>60,396,066</u>

During prior year, the Group sold certain investment properties with a carrying value of KD 550,000 for a total consideration of KD 655,000 resulting in a realised gain on disposal of KD 105,000.

As at 31 December 2020, investment properties of KD 4,250,000 (2019: KD 4,160,000) are held in the name of a third party under Ijara agreement (Note 8).

As at 31 December 2020, certain investment properties amounting to KD 31,953,000 (2019: KD 31,850,000) are pledged as a security against Murabaha agreement of KD 25,400,000 (2019: KD 25,000,000) (Note 8).

The fair value of the investment properties amounting to KD 60,347,404 (31 December 2019: KD 60,396,066) has been determined based on valuations obtained from independent valuers, who are an industry specialised in valuing these types of properties. One of the valuers is a local bank who has valued the local investment properties using the income capitalization approach, the other is a local reputable accredited valuer who has valued the local investment properties using the income capitalization approach. For foreign properties the valuation has been performed by a reputable accredited valuer who has valued these properties using the income capitalization approach.

As required by the Capital Market Authority (CMA), the Group has selected the lower of these valuations. Based on these valuations, the Group has recorded a fair value loss of KD 59,472 (2019: gain KD 730,152) in the consolidated statement of income.

The significant assumptions used in the valuations are set out below:

2020	<i>Kuwait</i>	<i>GCC</i>
Estimated market price for the land (per sqm) (KD)	1,831	658
Construction costs (per sqm) (KD)	410	459
Average monthly rent (per sqm) (KD)	9	6
Yield rate	8.7%	8.4%
Vacancy rate	11.3%	48.0%
2019	<i>Kuwait</i>	<i>GCC</i>
Estimated market price for the land (per sqm) (KD)	1,808	658
Construction costs (per sqm) (KD)	413	468
Average monthly rent (per sqm) (KD)	9	6
Yield rate	8.8%	8.3%
Vacancy rate	11.7%	37.8%

9 SHARE CAPITAL, GENERAL ASSEMBLY MEETING AND RESERVES

a) Share capital and general assembly meeting

The authorised, issued and fully paid up share capital at 31 December 2020, comprises 370,000,000 shares (2019: 370,000,000 shares) of 100 fils (2019: 100 fils) each paid up in cash.

The Annual General Assembly of the shareholders of the Parent Company held on 25 June 2020 approved the consolidated financial statements for the year ended 31 December 2019 and the distribution of cash dividends of 2 fils (2018: 2 fils) per share of KD 740,000 (2018: KD 740,000) for shareholders registered on that date.

In addition, the Annual General Assembly of the shareholders of the Parent Company approved the directors' remuneration amounting to KD 30,000 for the year ended 31 December 2019 (2018: KD 30,000).

The proposed cash dividends on ordinary shares for the year ended 31 December 2020 is Nil (2019: 2 fils per share of KD 740,000) are subject to the approval of the annual general meeting (AGM) and are not recognised as a liability as at 31 December.

Statutory reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a minimum of 10% of the profit for the year before contributions to KFAS, NLST, Zakat and board of directors' remuneration shall be transferred to the statutory reserve based on the recommendation of the Parent Company's board of directors. The annual general assembly of the Parent Company may resolve to discontinue such transfer when the reserve exceeds 50% of the issued share capital.

Distribution of the statutory reserve is limited to the amount required to enable the payment of a dividend of 5% of paid up share capital to be made in years when retained earnings are not sufficient for the payment of a dividend of that amount.

General reserve

In accordance with the Companies' Law, and the Parent Company's Memorandum of Incorporation and Articles of Association, a maximum of 10% of the profit for the year before contributions to KFAS, NLST, Zakat and board of directors' remuneration is required to be transferred to the general reserve. Such annual transfers may be discontinued by a resolution of the shareholders' general assembly upon a recommendation by the Board of Directors. There are no restrictions on the distribution of this reserve.

10 RELATED PARTY TRANSACTIONS AND BALANCES

These represent transactions with major shareholders, directors, executive officers and key management personnel of the Group, close members of their families and companies of which they are principal owners or over which they are able to exercise control or significant influence entered into by the Group in the ordinary course of business. Pricing policies and terms of these transactions are approved by the Parent Company's management.

Transactions with related parties included in the consolidated statement of profit or loss are as follows:

	2020	2019
	KD	KD
Foreign currency exchange differences	8,574	(7,541)

Tijara & Real Estate Investment Company K.S.C.P. and its Subsidiaries

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

10 RELATED PARTY TRANSACTIONS AND BALANCES (continued)

The Group has recognized a gain of KD 8,574 (31 December 2019: loss of KD 7,541) in the consolidated statement of profit or loss on foreign exchange rate fluctuation in SAR relating to the amounts due from one of the Group's subsidiary of SAR 115,709,647 (31 December 2019: SAR 122,414,924).

No balance with related parties included in the consolidated statement of financial position as at the reporting date.

Key management personnel

Key management personnel comprise of the Board of Directors and key members of management having authority and responsibility for planning, directing and controlling the activities of the Group. The key management personnel compensation is as follows:

	2020 KD	2019 KD
Salaries and short-term benefits	304,200	289,950
Employees' end of service benefits	60,277	125,739
	<u>364,477</u>	<u>415,689</u>

The Board of Directors of the Parent Company proposed a directors' remuneration of KD 30,000 for the year ended 31 December 2019 (2018: 30,000). This proposal is subject to the approval of the shareholder at the AGM of the Parent Company

11 CAPITAL COMMITMENTS AND CONTINGENCIES

Capital commitment

The Group does not have any capital commitments in respect of construction agreements as of the reporting date.

Contingent liabilities

The Group does not have any contingent liabilities as of the reporting date.

12 SEGMENT INFORMATION

For management purposes, the Group is organized into business units based on their products and services, and has two reportable operating segments as follows:

- Real Estate management comprises investment and trading in real estate and construction or development of real estate for the sale in the ordinary course of business and the provision of other related real estate services.
- Investment management comprises participation in financial and real estate funds and managing the Group's liquidity requirements.
- Other management comprises other activities rather than real estate and investment activities.

13 RISK MANAGEMENT

Risk is inherent in the Group's activities but it is managed through a process of ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Group's continuing profitability and each individual within the Group is accountable for the risk exposures relating to his or her responsibilities. The Group is exposed to credit risk, liquidity risk and market risk, the latter being subdivided into profit rate risk, foreign currency risk.

Risk management structure

The Board of Directors of the Parent Company is ultimately responsible for identifying and controlling risks and for the overall risk management approach and for approving the risk strategies and principles.

Executive management

The Executive management of the Group formulates the risk management policies of the Group and makes recommendations to the Board of Directors.

Credit risk

Credit risk is the risk that the Group will incur a loss because its customers, clients or counterparties failed to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties and for geographical and industry concentrations, and by monitoring exposures in relation to such limits.

With respect to credit risk arising from the other financial assets of the Group, including bank balances and accounts receivable, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group limits its credit risk with regard to bank balances by only dealing with reputable banks. With respect to accounts receivables, the Group minimises concentrations of credit risk by undertaking transactions with a large number of tenants. In addition, accounts receivable balances are monitored on an ongoing basis.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

13 RISK MANAGEMENT (continued)**Credit risk (continued)****Maximum exposure to credit risk without taking account of any collateral and other credit enhancements**

The table below shows the maximum exposure to credit risk for the components of the consolidated statement of financial position. The maximum exposure is shown gross, before the effect of mitigation through the use of master netting and collateral agreements (if any).

	<i>Gross maximum exposure 2020 KD</i>	<i>Gross maximum exposure 2019 KD</i>
Cash and bank balances (excluding cash on hand)	3,880,805	3,140,178
Accounts receivable (excluding prepayments and advances)	637,465	890,857
Total credit risk exposure	4,518,270	4,031,035

Risk concentrations of the maximum exposure to credit risk

The Group's financial assets, before taking into account any collateral held or other credit enhancements (if any), can be analysed by the following geographical regions and industrial sectors:

	<i>2020</i>				<i>2019</i>			
	<i>Banking and financial services KD</i>	<i>Construction and real estate KD</i>	<i>Other KD</i>	<i>Total KD</i>	<i>Banking and financial services KD</i>	<i>Construction and real estate KD</i>	<i>Other KD</i>	<i>Total KD</i>
Kuwait	3,636,577	239,976	45,194	3,921,747	2,892,668	292,143	46,673	3,231,484
Other GCC	244,228	281,594	70,701	596,523	247,510	506,169	45,872	799,551
	3,880,805	521,570	115,895	4,518,270	3,140,178	798,312	92,545	4,031,035

The Group has concluded that it is not significantly exposed to credit risk on cash and bank balances as these balances are mostly held with counterparties with appropriate credit-ratings assigned by international credit-rating agencies.

The Group uses a provision matrix based on the Group's historical observed default rates to measure the ECLs of tenants receivables from individual customers, which comprise a very large number of small balances. The Group assumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 90 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise. As at the reporting date, the majority of the Group's counterparty exposure has a low risk of default and does not include any past-due amounts.

The Group's exposure to credit risk from tenant receivables is influenced mainly by the individual characteristics of each tenant. Tenant credit risk is managed by ensuring that collections are made on a timely manner and by requiring tenants to pay rent advances, substantially eliminating the Group's credit risk in this respect. However, the effects of COVID-19 may increase the amount of ECL recognised relating to tenant receivables, due to the disruptive effects of the pandemic (e.g. shutdown of operations, reduced consumer spending, etc.).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

13 RISK MANAGEMENT (continued)**Liquidity risk**

Liquidity risk is the risk that the Group will be unable to meet its net funding requirements. Liquidity risk can be caused by market disruptions or credit downgrades which may cause certain sources of funding to dry up immediately. To guard against this risk, management has diversified funding sources and assets are managed with liquidity in mind, maintaining a healthy balance of bank balances and cash, and readily marketable securities.

Liquidity risk and funding management

The Group maintains a portfolio of highly marketable and diverse assets that can be easily liquidated in the event of an unforeseen interruption of cash flow.

Analysis of financial liabilities by remaining contractual maturities

The contractual maturities of liabilities have been determined on the basis of the remaining period at the consolidated statement of financial position date to the contractual maturity date. The maturity profile is monitored by management to ensure adequate liquidity is maintained. The maturity profiles of the financial liabilities at the year-end are based on contractual undiscounted repayment arrangement or on management's estimate of planned exit dates.

The Group expects a significantly adverse impact on its liquidity due to COVID-19 outbreak. Management has taken several steps in protecting cash flows through compensating cost saving measures and reductions to discretionary capital expenditure. Further, the Group aims to maintain the level of its bank balances and cash at an amount in excess of expected cash outflows on financial liabilities.

The maturity profile of the undiscounted financial liabilities at 31 December was as follows:

<i>31 December 2020</i>	<i>Within 3 months KD</i>	<i>3 to 6 months KD</i>	<i>6 to 12 months KD</i>	<i>1 to 3 years KD</i>	<i>Over 3 years KD</i>	<i>Total KD</i>

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

13 RISK MANAGEMENT (continued)**Market risk**

Market risk is the risk that the value of an asset will fluctuate as a result of changes in market variables such as profit rates and foreign exchange rates, whether those changes are caused by factors specific to the individual investment or its issuer or factors affecting all investments traded in the market.

Market risk is managed on the basis of pre-determined asset allocations across various asset categories, diversification of assets in terms of geographical distribution, a continuous appraisal of market conditions and trends and management's estimate of long and short term changes in fair value.

a) Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of financial instrument will fluctuate because of changes in market profit rates. The Group is exposed to profit rate risk on its floating profit bearing Ijara agreements (Note 8). Other than this the Group is not exposed to any other significant profit risk.

The following table demonstrates the sensitivity of the consolidated statement of income to reasonably possible changes in profit rates, with all other variables held constant:

	<i>Increase / decrease in basis points</i>	<i>Effect on profit for the year KD</i>
2020	+/-1%	331,792
2019	+/-1%	327,772

b) Foreign currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates.

Currency risk is managed by the treasury department of the Parent Company on the basis of limits determined by the Parent Company's board of directors and a continuous assessment of the Group's open positions and current and expected exchange rate movements. Management believes that there is minimal risk of significant losses due to exchange rate fluctuations and consequently the Group does not hedge foreign currency exposures.

The effect on profit (due to change in the fair value of monetary assets and liabilities) as a result of change in currency rate, with all other variables held constant is shown below:

<i>Currency</i>	<u>2020</u>		<u>2019</u>	
	<i>Change in exchange rate %</i>	<i>Effect on profit for the year KD</i>	<i>Change in exchange rate %</i>	<i>Effect on profit for the year KD</i>
SAR	+/-3%	311,224	+/-3%	305,203
USD	+/-3%	92,992	+/-3%	92,940

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

As at and for the year ended 31 December 2020

14 CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that it maintains healthy capital ratios in order to support its business and maximize shareholders' value.

The Group manages the capital structure and makes adjustments in the light of changes in economic conditions and risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. No changes were made in objectives, policies or processes for managing capital during the year ended 31 December 2020 and 31 December 2019.

The Group monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Group includes within net debt, Islamic finance payables and accounts payable and accruals (excluding advances from tenants), less bank balances and cash. Capital represents total equity of the Parent Company.

	<i>2020</i>	<i>2019</i>
	<i>KD</i>	<i>KD</i>
Accounts payable and accruals (excluding advances from tenants)	693,357	674,930
Islamic financing payables	33,196,542	32,740,068
Less: Bank balances and cash	(3,882,346)	(3,142,357)
Net debt	30,007,553	30,272,641
Equity	38,727,715	39,402,618
Total capital and net debt	68,735,268	69,675,259
Gearing ratio	44%	43%

15 FAIR VALUE MEASUREMENTS

Investment properties have been stated at fair values. For other financial assets and financial liabilities carried at amortized cost, the carrying value is not significantly different from their fair values as most of these assets and liabilities are of short-term maturity or repriced immediately based on market movement in interest rates.

The Group's investment properties is valued using level 3 of the fair value measurement.

Valuation techniques used to derive Level 3 fair values

The Group has one class of properties (residential, commercial and industrial). The table below illustrates the following:

- ▶ A description of the valuation techniques applied
- ▶ The inputs used in the fair value measurement, including the ranges of rent charged to different units within the same building
- ▶ For Level 3 fair value measurements, quantitative information about the significant unobservable inputs used in the fair value measurement.

During the year, there were no transfers into and out of level 3 fair value measurements. The reconciliation of the opening and closing amount of Level 3 are presented in Note 7.

16 MATURITY ANALYSIS OF ASSETS AND LIABILITIES

The table below summarises the maturity profile of the Group's assets and liabilities. The maturities of assets and liabilities have been determined according to when they are expected to be recovered or settled. The maturity profile for investment properties and inventory properties is based on management's estimate of liquidation of those assets.

The maturity profile of assets and liabilities is as follows:

31 December 2020	<i>Within 1 year KD</i>	<i>1 to 10 Years KD</i>	<i>Total KD</i>
ASSETS			
Bank balances and cash	3,882,346	-	3,882,346
Accounts receivable and prepayments	656,460	-	656,460
Inventory properties	608,732	-	608,732
Investment in an associate	-	8,171,714	8,171,714
Investment properties	-	60,347,404	60,347,404
Property and equipment	-	12,822	12,822
TOTAL ASSETS	5,147,538	68,531,940	73,679,478
LIABILITIES			
Accounts payable and accruals	796,981	-	796,981
Islamic financing payables	617,737	32,578,805	33,196,542
Employees' end of service benefits	-	958,240	958,240
TOTAL LIABILITIES	1,414,718	33,537,045	34,951,763
31 December 2019	<i>Within 1 year KD</i>	<i>1 to 10 Years KD</i>	<i>Total KD</i>
ASSETS			
Bank balances and cash	3,142,357	-	3,142,357
Accounts receivable and prepayments	1,353,732	-	1,353,732
Inventory properties	608,732	-	608,732
Investment in an associate	-	8,310,925	8,310,925
Investment properties	-	60,396,066	60,396,066
